Uses of Monitoring and Assessment in Wetland Programs

Association of State Wetland Managers released a new report - *Uses of Monitoring and Assessment: Considerations for State and Tribal Programs*. This report - which was prepared with technical assistance from an EPA State Wetland Program Development Grant - explores the various ways that states and tribes could make better use of existing monitoring and assessment methods to obtain science-based answers to wetland management problems. While it provides an overview of many common approaches to wetland monitoring, the focus is primarily on **why** these methods are selected for a given purpose. This report encourages the thoughtful identification of the most appropriate and efficient methods in light of available financial and staff resources.

ASWM WEBINARS

The Association of State Wetland Managers hosts webinars on various topics, most of which relate to a specific project and work group. In addition, ASWM hosts webinars as part of its members webinar series on topics of interest to members. Please click on the webinar group name below for more details about individual webinars. In all cases, if you have any questions about registering for a webinar, please contact Lewis at lewis@aswm.org.

If you haven't used Go To Webinar before or you just need a refresher, please visit our guide prior to the webinar here.

The Association of State Wetland Managers (ASWM) and the Society of Wetland Scientists (SWS) share the common goal of encouraging sound science in wetland research, management, education, policy, and conservation. To meet this goal, the two organizations have established a formal partnership in 2014. ASWM is pleased to provide a link to SWS's new Webinar Series and encourage you to investigate their webinar series as well as our own.
